## Hellenic Journal of Nuclear Medicine

Volume 22 • Number 1 • January-April 2019

Indexed/abstracted by: MEDLINE, Science Citation Index Expanded, Journal Citation Reports/Science Edition, EMBASE, Thomson-Reuters and Scopus Info and Index Copernicus Listed by the International Centre for Scientific Research-

The first hellenic journal of nuclear medicine

Impact factor: 1.008

torials: Sickle cell diseases: What can nuclear dicine offer? A. Niccoli-Asabella, C. Altini et al. e role of <sup>18</sup> F-FDG PET in the assessment of a behematological disorder: polycythemia. C. Ayubcha, losoya et al.	2	- Semi-quant rence of image four radionuc with a V-shap dy. C.F Chan
ore advantages in detecting bone and soft tissue astases from prostate cancer using <sup>18</sup> F-PSMA I/CT. N.K. Pianou, P.Z. Stavrou et al.	6	- The importating observated ablation
ginal Articles: Circulatory system and neuros- ices. Some perspectives in diagnosis and treat- nt. P. C. Grammaticos, S.J. Baloyiannis, V. Kokkas. Association between age, uptake of <sup>18</sup> F-fluorode-	10	Balci et al Factors sug first radioiodi L. Zhang et a
glucose and of <sup>18</sup> F-sodium fluoride, as cardiovas- ir risk factors in the abdominal aorta. L.S. Arani, I. Gharavi et al. restigation, of appropriate semi-guantitative index	14	of <sup>18</sup> F-FDG P patients with

- for assessment of esophageal and breast cancer treatment response in Japanese patients using <sup>18</sup>F-FDG PET/CT findings . T. Tsuchitani, Y. Takahashi et al. -Prognostic value of <sup>18</sup>F-FDG PET/CT prior to breast cancer treatment. Comparison with magnetic resonance spectroscopy and diffusion weighted imaging. K. Kitajima, T. Yamano et al.
- Comparison of ultrasound and digital mammography plus tomosynthesis in determining benign and malignant breast lesions using pathology as a gold standard, in 102 Chinese women. L. Yang, C. Zhou et al. 36 - A concept of radiation hormesis. Stimulation of antioxidant machinery in rats by low dose ionizing radiation. S. Sharma, N. Singla et al.

- ification of the minimum detectable diffeging quality of gamma camera SPET for lides via an innovative PMMA phantom ped slit: interpretation of a feasibility stug, C.F. Chen et al.
- ance in diagnosing patients with conflictional data for post surgery radioiodinaof thyroid remnants. F.S. Simsek, T.A.
- gesting relapse of Grave's disease after ne therapy. Analysis of 607 cases. J. Li
- rt Communication: Diagnostic utility ET/CT in fever of unknown origin among end-stage renal disease treated with renal t therapy. I.O. Lawal, G.O. Popoola et al. Images: Symmetric breasts metastatic prostate cancer shown by 68 Ga-PSMA PET/CT scan. K. Mokoala
- Radioiodine hot feet sign on post-ablation high dose of 131 of whole-body scan. C.K. Huang, K.H. Chao,
- Letter to the Editor: 68 Ga tagged dendrimers for molecular tumor imaging in animals. X. Wei, Z. Liu, Z. Our thanks to our Reviewers

30th Meeting of the Hellenic Society Nucl Med: Concise programme and information. **Abstracts in Greek from the English Section**
